

INDUSTRIAL HYGIENE-INDOOR AIR QUALITY CAPABILITY STATEMENT

COMPANY PROFILE

Established: 2011
 State of Incorporation: Iowa
 Socioeconomic - Small Business:
 8(a) Firm - SBA Certified
 Exp: 22 Dec. 2029
 SBA Certified EDWOSB
 SDVOSB / VOSB
 GSA: 47QRAA22D000Y
 Exp: 18 Oct. 2026
 NAICS: 541310, 541330,
 541380, 541620, 541690,
 541990 & 562910
 SAM UEI: SMZHZ31DN6T3
 CAGE: 7CVG3
 DUNS: 07-968-9293

ACT Safe, LLC is a multifaceted Regulatory Compliance Service provider assisting companies with local, state, and federal regulatory compliance. We have thousands of years combined experience as former regulators and compliance managers. ACT Safe provides Environmental, Occupational Safety and Health (OSH), Engineering, and Transportation solutions. From permitting, audits, Industrial Hygiene, Indoor Air Quality, ACM / LBP, expert witness, hazard determinations, written programs, training and file plan management - we cover your needs.

INDUSTRIAL HYGIENE

Industrial hygiene services are focused on the anticipation, recognition, evaluation, communication and control of environmental stressors in the workplace environment. Such environmental stressors can include biological, chemical, physical, ergonomic or psychosocial categories and may result in injury, illness, impairment, or affect the overall wellbeing of workers and members of the community. Employers need a rigorous and professional program with independent evaluation to determine the potential for hazards, an evaluation of exposures or risk in the workplace, and recommended corrective actions. ACT Safe has a team of professional industrial hygienists as well as licensed asbestos and lead based paint technicians.

SERVICES

- Identify health & safety problems in the workplace
- Conduct worksite and or personal sampling and analysis for exposure levels for chemicals, lead, asbestos, silica, mold and noise
- Develop and /or recommend corrective measures to eliminate hazards and prevent future problems to include engineering and non-engineering controls (to include work practices).
- Assess Engineering Controls/Ventilation
- Assess all worksite environmental stressors
- Assist in developing mandated health & safety programs
- Interpret safety data sheets (SDS)
- Perform Chemical Speciation
- Determine Community Exposures and risks
- Provide a full Health Risk Analysis & Hazard Communication

WHAT TO EXPECT

Our team will work in tandem with your staff to both assess and control the physical, chemical, biological or environmental hazards in the workplace or community that could cause injury or disease. ACT Safe also maintains an assortment of industrial hygiene equipment to test and assess nearly any type of indoor environment.

WHO WOULD BENEFIT?

Air Monitoring: ACT performs both personal and area monitoring for potential air contaminants in working environments. Inhalation exposures to hazardous materials are evaluated by comparing them to Occupational Exposure Limits (OELs) that have been developed for air contaminants. Generally accepted OELs include the Permissible Exposure Limits (PELs) established by the Occupational Safety and Health Administration (OSHA), the Threshold Limit Values (TLVs) established by the American Conference of Governmental Industrial Hygienists (ACGIH) and the Recommended Exposure Limits (RELs) established by the National Institute for Occupational Safety and Health (NIOSH).

Noise Monitoring: Noise dosimeters and sound-level meter readings are used to evaluate employees' noise exposures. Employees' noise exposures are evaluated according to OSHA guidelines (or applicable state regulations). Employees whose noise exposures potentially exceed the "Action Limit" (85 dBA) must be included in a Hearing Conservation Program (HCP) and employees whose noise exposures exceed the "Permissible Exposure Limit" (PEL) (90 dBA) must also wear appropriate hearing protection until feasible noise reduction controls can be implemented.

Technical Recommendations for Risk Mitigation - -Expert Witness Testimony - Training - Provide temporary / full-time Staff.

CLIENTS

Annheiser Busch | Aspen API (Pharmaceutical) | Bioiberica (Pharmaceutical) | Interbake Foods | Coleman Company | ConAgra | HDR
 Nestle | Pfizer (Pharmaceutical) | Smithfield Foods | Veterans Administration | VISN 6, 8, 9, 12, 13, 15 & 23 | USACE | USCG | USAF
