

## CONFINED SPACE

## CAPABILITY STATEMENT

---

---

**8(a) Exp. 12-2028, ACDBE, DBE, EBE, EDWOSB, MWBE, SBE, SDB, SDVOSB, Iowa TSB, VOSB, WOB and WOSB**

### **WHY CONFINED SPACE SERVICES ARE REQUIRED**

Entering a confined space may be extremely hazardous. Therefore, it is important that anyone who must work in a confined space, or who supervises someone who must enter a confined space, understands the hazards involved. A confined space standard - OSHA regulation 29 CFR 1910.146 - is any type of chamber such as a storage tank, transformer vault, manhole, etc., where entry or exit is restricted. Ventilation in confined spaces may also be restricted and may cause adverse atmospheric conditions such as low oxygen and a buildup of toxic vapors and combustible gases within the confined space.

### **WHY CONFINED SPACE RESCUE PERSONNEL TRAINING**

The primary role of rescue service personnel is to help authorized entrants escape from permit spaces. ACT Safe has hundreds of years' experience with Confined Spaces to include providing Rescue personnel with the skills and tools needed to safety, effectively and quickly manage the escape of an authorized entrant (or others). Knowledge and skills needed:

- Having the capability to reach victim
- Knowing how to use required PPE
- Completing authorized entrant training

### **WHAT SERVICES WE PROVIDE**

Our staff is Authorized OSHA trainers, degreed (Bachelor, Master and PhD) and numerous other certifications in Safety, Confined Space, Industrial Hygiene (CIH), etc. Staff performing Confined Space Hazard Determinations has at least 20 years' experience each.
